DEF TECH MARYLAND

Defense Technology Commercialization Center

COMMERCIALIZING NEW TECHNOLOGIES

March 21, 2018 • 05:30 PM – 07:30 PM

The GroundFloor • 2021G Pulaski Highway • Havre de Grace, MD

The DefTech Center will host a meeting featuring representatives of technology transfer offices (TTOs) present at Aberdeen Proving Ground, the Office of Community and Economic Development, and the DefTech Center. The session will include short presentations and discussion about the resources and assistance available from each of these organizations for individual entrepreneurs and companies to support the development of their businesses.

The event is open to anyone with an interest in entrepreneurship and the commercialization of new technologies.
For more information please contact: Gary Evans at info@deftechmd.com

The Maryland Defense Technology Commercialization Center (DefTech) *is a new initiative of the Maryland Department of Commerce, the U.S. Army Research, Development And Engineering Command (RDECOM), and Harford and Cecil Counties. The purpose of DefTech to stimulate and support technology transfer activity between the R&D enterprise at Aberdeen Proving Ground (APG) and potential partners and licensees. The core activities of DefTech include: outreach and networking events and activities; technology showcase and discovery events; educational events and programs for entrepreneurs and companies developing new science and engineering based products; mentoring for individual entrepreneurs and teams.*
